

Position: Regional Sales Manager

RSM Territory: Indiana

Job Type: Full-time

Job Description

HELUKABEL® USA, Inc. has an opportunity for a Regional Sales Manager to develop and execute sales and marketing activities to OEM customers, integrators, contractors, and distributors. This position requires a highly motivated and organized self-starter who can quickly develop and maintain knowledge of HELUKABEL® products and solutions.

Responsibilities:

- Develop and implement effective sales strategies for regional state IN (no direct reports)
- Meet/exceed regional sales quota of HELUKABEL® products, business segments and corporate strategy as established by management.
- Execute direct channel sales calls with OEM/MRO, Integrator, Contractor, Distributors and projects on a regular basis to achieve defined quotas
- Conduct hands-on training sessions at OEM, authorized distributors, system integrators, contractors, and customer sites
- Work with RSD, Inside Sales and Marketing Team, GAM (Global Accounts Management), Strategic Accounts, to implement account strategies and achieve sales objectives
- Become proficient in industrial wire and cable solutions for all vertical markets (automation, material handling, food & beverage, robotics, automotive, pulp paper)
- Learn, utilize and in time train SAP CRM database processes for activities, leads and opportunities
- Provide forecasts and budget updates to the Regional Sales Director
- Follow-up on leads, quotations and orders within the assigned territory
- Provide timely expense reports, Motus mileage reporting, sales call activity and opportunity tracking
- Be aware of competition and market trends as related to territory and industry
- Travel overnight 0-50% as dictated by assigned territory and to corporate headquarters and areas inside/supporting region

Desired Skills and Preferred Experience:

- **Outside Industrial Sales Experience:** 3-5 years of comprehensive direct territory “outside” industrial sales experience; technical applications for industrial cable are a plus
- **Territory Knowledge:** A solid understanding of the territory’s customer base and targets and how to navigate for industrial automation manufacturing, machine building and distribution
- **Product Knowledge:** Industrial wire and cable experience is extremely beneficial (i.e., previous experience working for an electrical cable distributor or wire and cable manufacturer)
- **Application Knowledge:** Industrial plant and/or factory automation experience including VFD’s, servo’s plc’s, data comm, etc. cable assembly and harnesses, continuous-flex cables for drag chain and/or robotic dress pack applications.

- **Industry Knowledge:** Having direct experience working in the electrical side of industrial plant automation and/or through direct channel partners (distribution, integrator, contractor, etc.)
- **Customer Base Knowledge:** An existing network of contacts and customers or ability to develop and manage multiple OEM/MRO, distributors, integrators, and contractors in the industrial automation, material handling, food & beverage, automotive, robotics and/or electrical distribution industries
- Ability to utilize SAP CRM and execute basic Microsoft Word, Excel and PowerPoint requirements for presentations, strategies and reporting
- Experience in preparing monthly management reports and annual forecasts for budgeting
- Excellent organizational skills, detail-oriented, ability to plan (4-week calendar) and execute sales strategies efficiently and productively

Compensation & Benefits:

- Remote Position (Reimburse Expenses)
- Competitive Base salary with uncapped monthly commissions (approximately 60/40 ratio)
- Monthly fixed car allowance plus monthly variable mileage reimbursement
- Health, dental, life insurance
- 15 PTO days after 90 days employment
- Simple IRA 3% Match
